

2022 ICT MENTORSHIP EPISODE 8

APPLYING INSTITUTIONAL ORDER FLOW TO FOREX MARKETS
BRAVEHEART STUDY NOTES

INTRODUCTION

Welcome!

Disclaimer: None of the contents within this PDF should be considered professional advice. It is merely for entertainment purposes only.

If you have been following me on YouTube lately, you know that I help Traders reach their full trading potential.

The aim is to be the bridge between who Traders currently are and who they want to become.

With that being said, the concepts mentioned in belong to "The Inner Circle Trader".

CAN THE ICT 2022 MENTORSHIP TRADING MODEL BE APPLIED TO HIGHER TIME FRAME CHARTS?

The Trading Model consists of:

Step 1: Step 1: Price Sweeps a Liquidity Pool.

This can come in the form of Clean Highs/Lows or Old High/lows.

Step 2: Market Structure Shift

A break of a recent high/low after Price completes Step 1

Step 3: Fair Value Gap Entry

Look for a Fair Value Gap within the Range for an Entry.

Australian Dollar / Japanese Yen, 1D, FOREX.com O91.485 H92.110 L90.766 C91.275

WHAT IS THE DRAW ON LIQUIDITY?

Is Price going to draw towards a Discount FVG or Old Low?

Is Price going to draw towards a Premium FVG or Old High?

Until the price reaches the Draw on Liquidity, you will have to stick towards the idea of it trading towards it.

YOU DO NOT WANT TO FLIP FLOP BACK N FORTH BETWEEN DRAW ON LIQUIDITY IDEA.

Internal Range Liquidity & External Range Liquidity Exits.
These will be the Draw on Liquidity.
