MON - TUE engagement = bullish classic expansion week

forexfactory.com/calendar

the economic calendar is a form of time

pair with relevant $[\geq H1]$ PD arrays to establish bias

- high-impact news = volatility

speed and exaggerated manipulation **do not** invalidate the chart

ideal expansion scenario:

Mon Feb 13						●
Tue Feb 14	8:30am)	USD	🔴	CPI m/m	●
)	USD	🔴	CPI y/y	
)	USD	🔴	Core CPI m/m	
Wed Feb 15	8:30am)	USD	🔴	Core Retail Sales m/m	●
)	USD	🔴	Empire State Manufacturing Index	
)	USD	🔴	Retail Sales m/m	
Thu Feb 16	8:30am)	USD	🔴	Core PPI m/m	●
)	USD	🔴	PPI m/m	
Fri Feb 17						●

[MON] accumulation

[TUE] manipulation

$\geq H1$ PD array reversal

high/low of week

[WED - THU] expansion

news volatility injections

trade towards weekly draw

[FRI] return into range

allow the economic calendar to be a roadmap

follow the high-impact news manipulation and expansion in respect to $[\geq H1]$ PD arrays

- weekly profile + economic calendar

$[\geq H1]$ PD arrays

= time and price

MONDAY PROTOCOL

rules + expectations

[1] avoid monday participation

weekly range accumulation

- lacks high-impact news
- [consolidation]

or

weekly range judas swing

- opposing direction to DOL
- [manipulation]

[2] study monday daily range

MON accumulation

- TUE manipulation [discount]
- low of week

MON accumulation

- TUE manipulation [premium]
- high of week

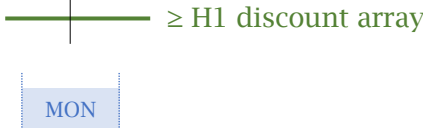

or

MON judas swing

- MON reversal [discount]
- low of week

MON judas swing

- MON reversal [premium]
- high of week

NEGATIVE CONDITION

low-probability classic expansion weekly profile

[1] monday accumulation, tuesday expansion without manipulation

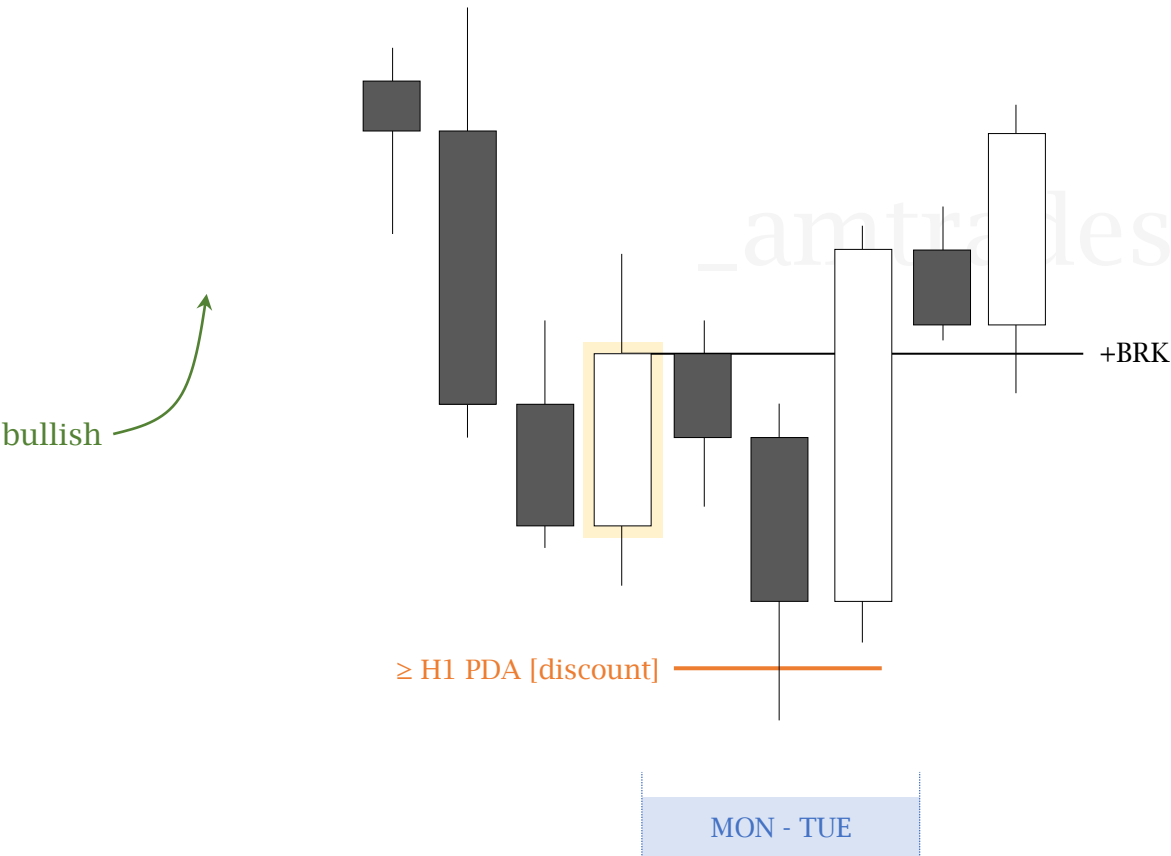

[2] monday opening expansion towards weekly draw on liquidity, continuation without manipulation

no manipulation
no high-timeframe PD array
always = low-quality framework

REVERSAL STRUCTURE

hourly change in state of delivery

MON - TUE

≥ H1 discount array

[engaged]

•

H1-H4 candle close above breaker

[change in state of delivery]

= start bullish order flow

MON - TUE

≥ H1 premium array

[engaged]

•

H1-H4 candle close below breaker

[change in state of delivery]

= start bearish order flow

EXPANSION DAYS

high-probability trading days

tuesday

4/5 rating

- expansion candidate
- potential reversal day
- use monday data [page 5]

wednesday

5/5 rating

- ideal day of week within profile
- previously confirmed reversal
- bulk of weekly range expansion

thursday

4.5/5 rating

- continuation setup to weekly draw
- london + new york am session
- potential reversal capping weekly range

bullish classic expansion week

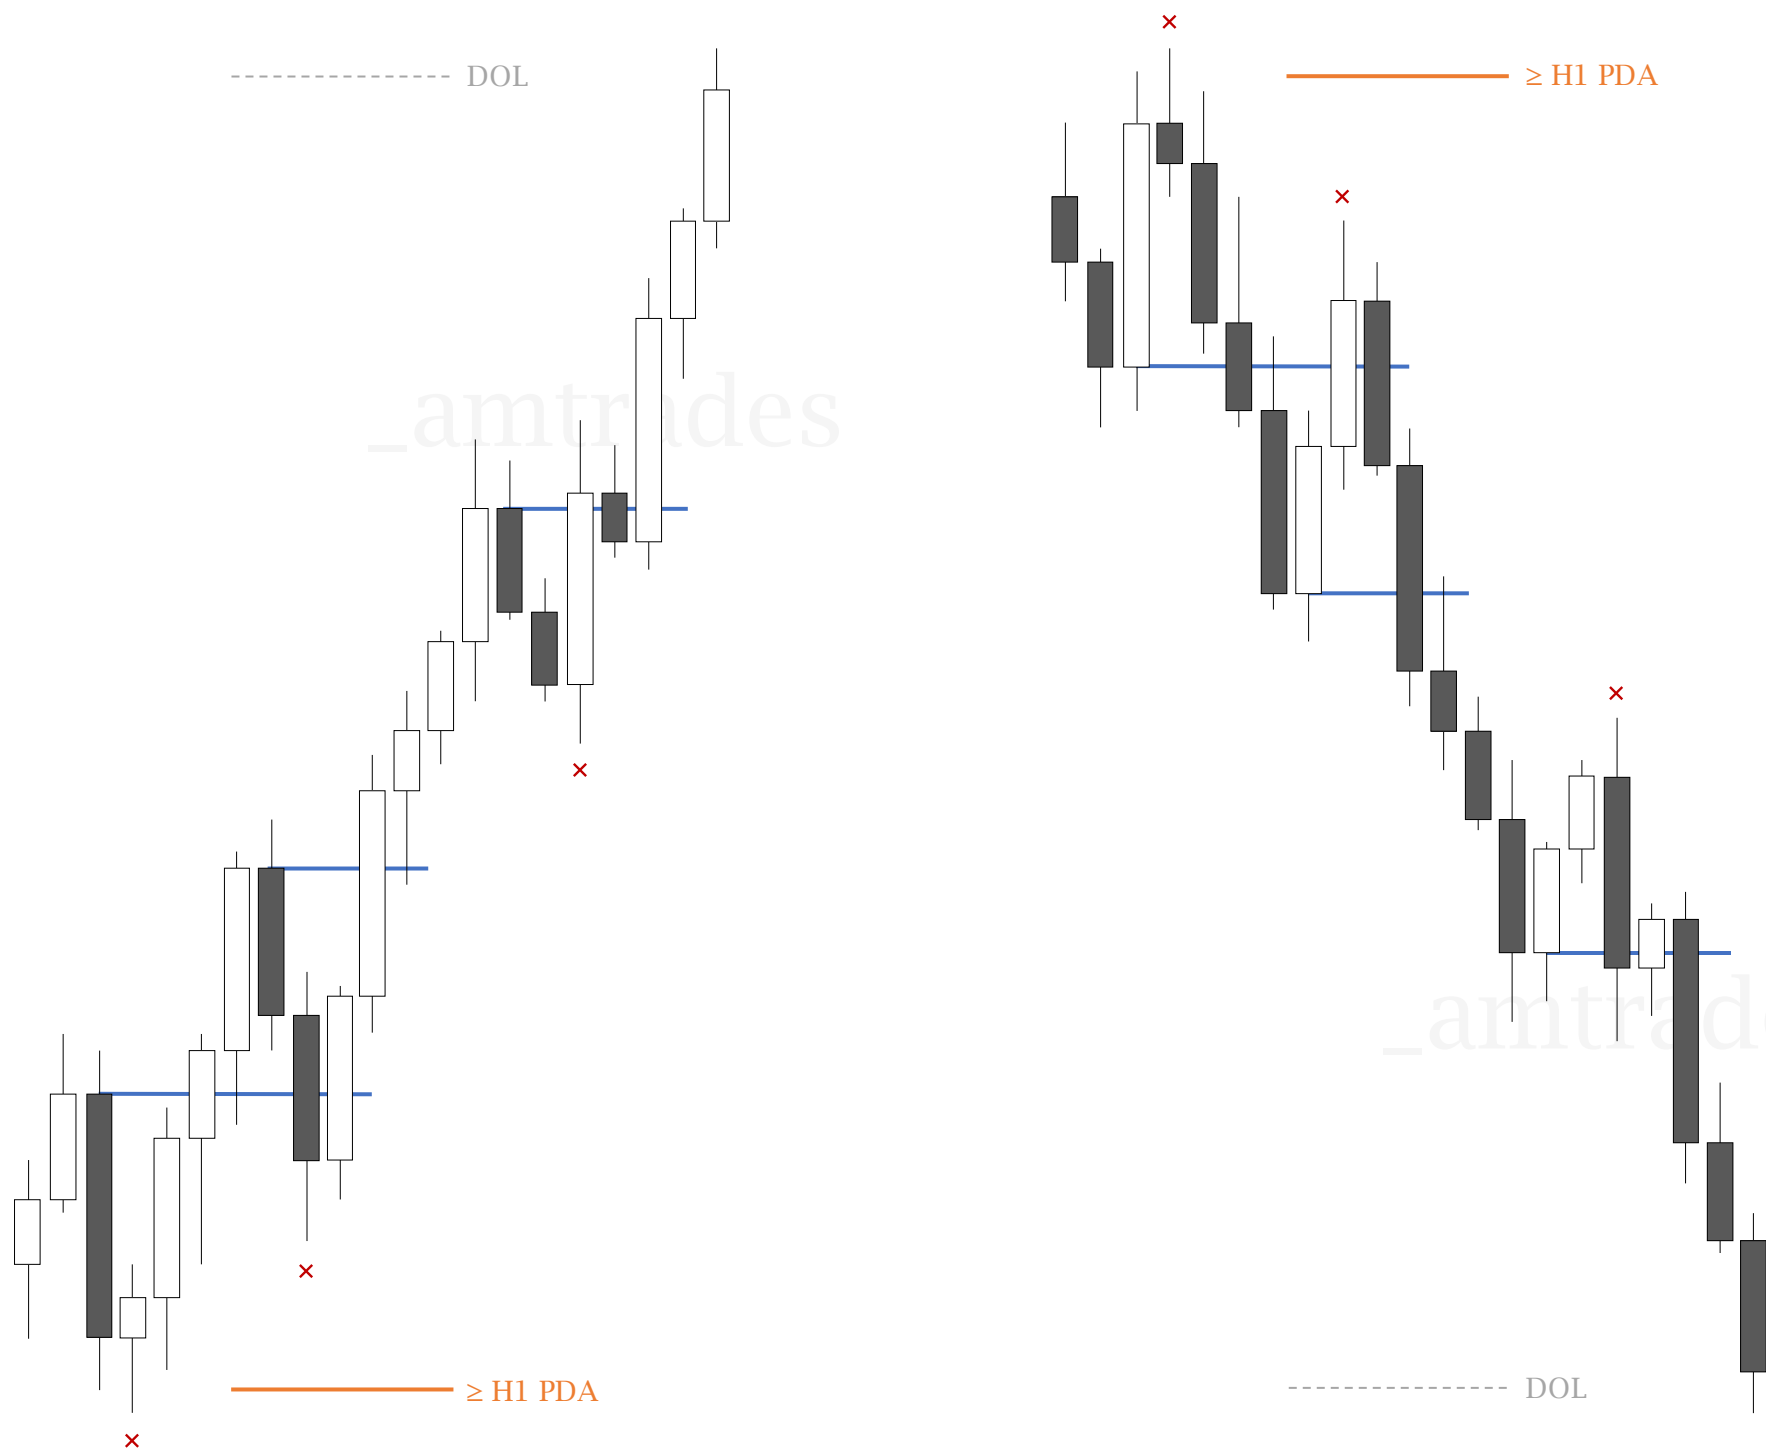

bearish classic expansion week

LOW-TIMEFRAME

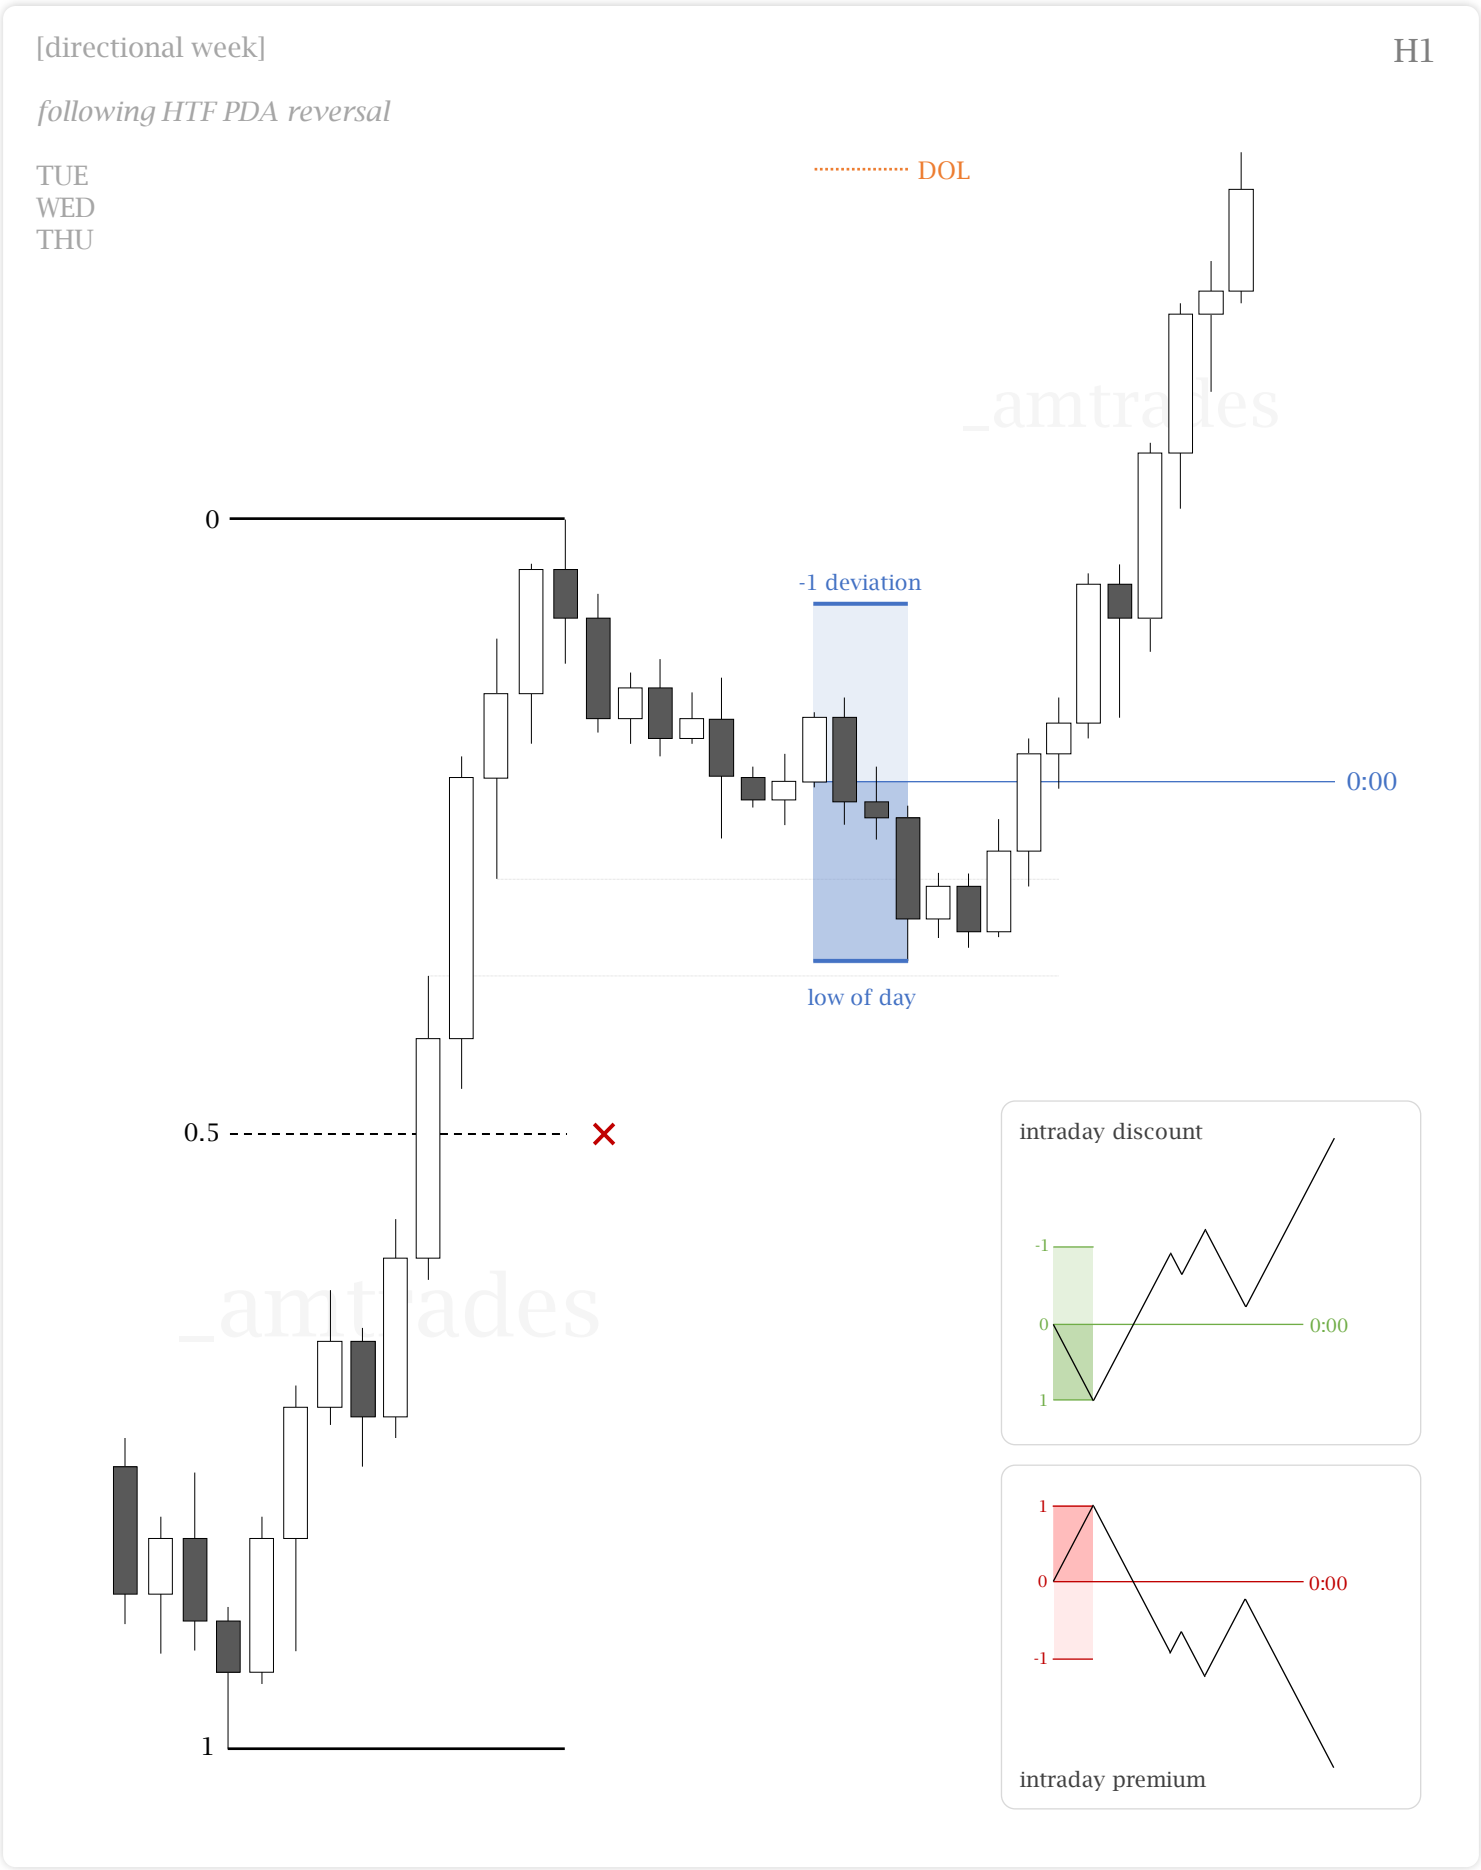

expansion day price action [M15 - M5]

[twitter post](#)

REFINING RANGE

expansion days [conditional]

measuring premium and discount range **during expansion** [market lacking deep retracements]
